

## **Geological Field Assistant – Summer Student (multiple positions)**

### **About the Project**

KG Exploration is the Greenfield arm in Canada for Kinross Gold. KG Exploration currently has a number of early stage gold exploration projects in the Snow Lake area in northern Manitoba, and in the Dryden and Red Lake regions of Western Ontario. For the 2024 field season, the work to be conducted on the properties will primarily consists in a geological mapping/prospecting.

### **About the Position**

Work locations: Snow Lake, Northern Manitoba; Dryden & Red Lake, Western Ontario.

Reporting to the Project Geologist, the geological assistant will support various geoscience activities for the summer field program. This will be 3-4 months field-based seasonal work assignment; from May until August. This is an ideal opportunity for applicants interested in gaining valuable experience in mineral exploration.

### **Essential Duties**

- Assisting with a variety of geological activities including mapping and prospecting
- Geological sampling and data entry
- Undertaking sample submission, quality control and shipment tracking
- Other duties as required

### **Training and Experience Requirements**

- Enrolment in a BSc. Program in geology, geological science or earth science
- Familiar with basic geological concepts such as rock and mineral identification
- Excellent work ethic and organizational skills
- Strong communication skills
- Strong commitment to working in a safe and socially responsible manner
- Ability to frequently lift, carry, push 35kg
- Ability to frequently reach below and at shoulder level
- Able to work in a remote camp setting on a rotational basis
- Possession of a drivers license

### **Working Conditions**

All positions will require that staff travels through Winnipeg; crews will then drive to and from their field base (Snow Lake/ Dryden/ Red Lake) for each rotation. The rotational schedule will be 22 days in and 12 days out, with travel occurring on work time. The nature and duties of this role are subject to change as program progresses. The company provides all accommodations, travel expenses and food.

### **How to Apply**

To be considered for this position you must submit your application by email to [brendan.vibert@kinross.com](mailto:brendan.vibert@kinross.com) and [simon.gagne@kinross.com](mailto:simon.gagne@kinross.com). Please include a detailed cv and a cover letter in PDF format. All employment contracts are for KG Exploration (Canada) through one of its associate partner companies. If you were to receive an offer of employment for this position, you will be required to have valid First Aids certification for the summer 2023.

Not all applicants will be selected for interviews.

Interviews will take place between late January – Early February.
